► For Repair or Service

If the product stops working correctly, discontinue its use and contact to the service center where you purchased.

► Repair Policy

1. This product has passed strict quality control and testing process.
2. Failure of the product under normal operating conditions, during the warranty period may be repaired by Softech LED LLC or our authorized service organization free of charge. Some shipping or handling charges may be involved.
3. For the following cases, some service fees will be charged.
 - 1) When the product is damaged due to user's mishandling, abuse, or improper operation.
 - 2) When the product is damaged due to user's modification, attempted repair, or otherwise access to sealed/non-user serviceable items.
 - 3) When the product is damaged due to fires, pollution, earthquakes and any other natural or unnatural conditions, accidents, etc.
4. It will be at the sole discretion of authorized service center to determine the qualification of the warranty service. Original purchase invoice and other documentation may be required to verify qualification of service.

LED DESK LAMP

DL-90/Natural Light Multi-function Lamp

USER MANUAL

Thank you for purchasing DL-90. Please read instructions with care and operate DL-90 safely before use. We'd like to recommend you to keep instructions to use DL-90 well.

FCC (Federal Communications Commission)

- **Caution** : Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- **Note** : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio / TV technician for help.
